

# HOW TO MAKE PAPER FLOWERS!

YOU WILL  
NEED:

## INSTRUCTIONS

4 sheets of tissue  
paper - the  
ones we used  
were approximately  
19x12cm

Pair of scissors  
(please only use  
scissors under  
supervision  
from an adult)

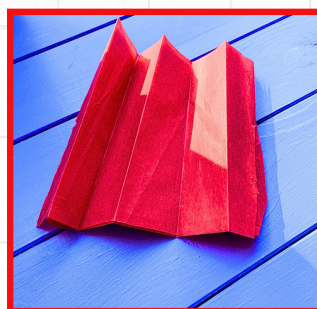

Stapler (please  
only use a stapler  
under supervision  
from an adult)

### STEP 1

Bring your 4 pieces of  
tissue together,  
stacked on top of one  
another.

### STEP 2

Begin to fold the  
paper in a  
concertina shape,  
until all the paper  
is used up.

### STEP 4

Place one staple in  
the middle of the  
paper.

### STEP 3

When all the paper  
is folded, bring it  
lengthways through  
the stapler.

### STEP 5

Begin to open up  
the sections of  
paper.

### STEP 6

Gently pull away  
each layer of paper  
to form the petals.

### STEP 8

For different flowers:  
try with smaller or  
larger pieces of tissue  
paper, or alternating  
colours for each layer  
of tissue.

### STEP 7

Do this for each  
section so your paper  
looks like a flower!  
Fluff up sections  
until you get the  
desired shape.

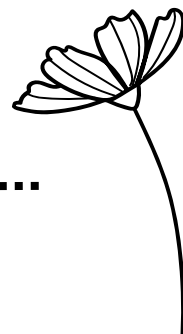

PLEASE SHARE YOUR FLOWERS FROM #TEAMRED ON #REDWEDNESDAY WITH US. WE WOULD LOVE TO SEE  
SOME PICTURES; YOUR TEACHER MIGHT BE ABLE TO CAN SHARE THEM ON SOCIAL MEDIA
