

ADVENT INSTRUCTIONS FOR TEACHERS AND CHAPLAINS

You will see this candle on the presentation with instructions to colour it in up to the appropriate day. The idea is that instead of having an Advent Candle that you light each day, you have a paper one on a display board and the pupils colour in each day of Advent.

1. Draw a large candle or cut out the one attached and glue it to a notice board
2. Write the numbers 1-24 on it
3. When you come to say your Advent prayer each day assign a pupil to colour in up to the appropriate day. They could also write their names in by the space they have coloured.
4. If you place the candle in the middle of a notice or display board, you could ask the pupils to record their prayers and actions and put them on Post-It notes (see below)
5. As you colour in each day, you can remind them that this symbolises their spiritual preparation for Christmas.
